Please find below and/or attached an Office communication concerning this application or proceeding.

Office Action Summary	Application No. 10/601,403	Applicant(s) KRISHNAMURTHY ET AL.	
	Examiner Chandrika Prasad	Art Unit 2839	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 23 June 2003.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1-9 is/are pending in the application.
- 4a) Of the above claim(s) _____ is/are withdrawn from consideration.
- 5) ☐ Claim(s) _____ is/are allowed.
- 6) ☒ Claim(s) 1-9 is/are rejected.
- 7) ☐ Claim(s) _____ is/are objected to.
- 8) ☐ Claim(s) _____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☒ The specification is objected to by the Examiner.
- 10) ☐ The drawing(s) filed on _____ is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

- 12) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☐ All b) ☐ Some * c) ☐ None of:
1. ☐ Certified copies of the priority documents have been received.
 2. ☐ Certified copies of the priority documents have been received in Application No. _____.
 3. ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).

* See the attached detailed Office action for a list of the certified copies not received.

DETAILED ACTION

Specification

1. The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-2 and 4-7 are rejected under 35 U.S.C. 102(b) as being anticipated by Militaru (20030059183).

Militaru (Figures 1-4) shows an optical fiber cable 2 having an outer jacket 10, a plurality of core tubes 12 within the outer jacket and a plurality of optical fibers 42 within each of the core tubes wherein the cross-sectional area of the plurality of optical fibers in each tube is less than 60% of the cross-sectional area of the respective tube and length of each fiber is between 1.0 and 1.001 of the length of the tube. The cable has a plurality of strength members 28 and tearable web portion next to rip cords 36, 40. The core tubes are helically wound together.

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and

Art Unit: 2839

the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claim 3 is rejected under 35 U.S.C. 103(a) as being unpatentable over Militararu (20030059183).

Militararu shows all the features of this claim as described in Paragraph 2 above except the material of the core tube and the outer jacket. It would have been obvious to one having ordinary skill in the art at the time of the instant invention to make the core tube and the jacket of polyvinyl chloride, polyvinylidene fluoride homopolymer, or polyvinylidene fluoride copolymer because these materials are well known and it has been held to be within the general skill of a worker in the art to select a known material on the basis of its suitability for the intended use. In re Leshin, 125 USPQ 416.

6. Claims 8-9 are rejected under 35 U.S.C. 103(a) as being unpatentable over Militararu (20030059183) in view of Blew et al. (5651081).

Militararu shows all the features of these claims as described in Paragraph 2 above except the electrical conductors. Such a feature is well known in the art of optical fiber cables. Blew shows a plurality of electrical conductors 18, 19 in an optical fiber cable. It would have been obvious to one having ordinary skill in the art at the time of the instant invention to provide such a feature to the Militararu's cable because this would provide a means to transmit electrical power and/or signal as shown by Blew.

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Newton et al. (6681071), McAlpine et al. (6356690), Parris et al. (6529663)Wagman et al. (6546175) and Conrad et al. (20030223714).

Art Unit: 2839
